More experience. Better choices.

## NEW PAC FW 650SI Servo Box Motion Inverted Flow Wrapper

GET THE  
MACHINE &  
MATERIALS  
FROM PAC!

The 650SI flow wrapper runs with **curbside recyclable paper packaging** that can be purchased from PAC Machinery Bags and Materials

## MACHINE HIGHLIGHTS

- Lower reel design works great with soft products, including apparel
- Sealing system is designed to work with standard plastic-based films as well as NEW curbside recyclable paper from PAC Machinery- ideal for businesses with plastic-free, sustainable packaging goals.
- Servo-driven box motion operation for high speed, minimal maintenance, and ease of set-up
- 13.75" wide end seal jaw to accommodate products up to 12" wide or 8" in height
- Comes standard with a belted infeed conveyor, which provides flexibility when packing variable length product
- Remove infeed conveyor, with product catch drawers, for ease of cleaning
